Indian Guide and Princess Program

Their childhood may be brief but their memories will last a lifetime

We're Offering Something Money Can't Buy...

A chance to be pals with your child

Have you ever made a pledge to spend time with your children?

Here's an opportunity to make your pledge come true. Become part of our YMCA parent-child program. You and your child will soon solidify a warm and close relationship.

Since 1926 the YMCA has sponsored Y-Indian Guide Programs designed to bring parents and their children closer together. The strong qualities of – dignity, patience, endurance, spirituality, feeling for the earth, and concern for the family – have become the corner stone of Y- Indian Guide Programs. Today more than half-a-million members participate in these nationwide programs for kids in grades K-3.

In these programs you'll also meet and share experiences with other parents who need time together with their children. Each of you will have one very important thing in common – the desire to build a stronger relationship with your child(ren), while the character attributes of honesty, respect, responsibility and caring are emphasized.

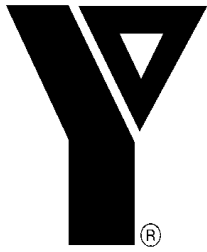

NEW TRIBES ARE FORMING NOW!!!

Take time to build strong relationships with your children.
